

**A Seamless Onboarding Experience:** With Shai as your Artificial Intelligence (AI) solution, you can streamline and automate your entire onboarding process, creating a great first impression while delivering a best-in-class experience.

## shai

Gain a 100% accuracy rating to ensure all necessary information is captured and correct as you welcome new employees to your organization.

Deliver a consistent, high-level experience to show your commitment to your employees and your dedication to advanced technology.

Keep the momentum going and the excitement up with an incredibly responsive AI that moves employees through onboarding quickly.

Whether an employee has just been hired or is leaving for new opportunities, you want them to feel positive about their experience and interaction with your organization. Often times, this means their first and last touchpoints are with your on and offboarding processes.

By implementing Shai to facilitate this transition period, you can ensure 100% accuracy in information and a streamlined workflow, all while maintaining control over the experience. Relying on Shai to automate the administrative tasks of on and offboarding allows you to focus on creating the best impression of your brand and culture.

Specific Shai onboarding tasks can include:

- Capturing all required forms and paperwork
- Establishing initial access to email and systems
- Connecting new employees to teams and leaders
- Removing access and authority for exiting staff
